

PARTICULARS TO A JUSTICE

On Monday, September 24th, 2012 at approximately 19:17 hrs the Bridgewater RCMP received a 911 call from a female stating that someone was banging on her door there was a young male on her step with chains around his ankles and his wrists and no clothes except a coat and hat. This male left when she said she was calling police. This 16 year old male was later located by police and advised that he had been sleeping on the street in Halifax area and woke up in a van with a man and was taken to a residence, which turned out to be in Lunenburg County. At this residence was a second man. Over the course of several days these two men, forcibly confined and sexually assaulted the 16 year old male. The 16 year old said the two men were talking about trying to sell him. The two men left the residence and the 16 year old male was able to escape. The victim was able to provide the names David and Kenny.

Through inquiries with the owner of the house where the boy was held captive, investigators determined that David Leblanc and Wayne Cunningham were renting it and living at that address. Investigators compared the description provided by the victim to Leblanc and Cunningham and believe them to be the persons responsible for the confinement and sexual assault. Attempts to locate LeBlanc and Cunningham have been fruitless to this point.

Leblanc is currently on an undertaking relating to multiple charges around the Province concerning child pornography, sexual assault and sexual interference. (Attached)

I believe it is in the public interest to obtain a warrant in the first instance for the arrest of David Leblanc and Wayne Cunningham.
